

Werner 6 Tread Fibreglass Heavy Duty Trade Stepladder

Constructed using seven layer fibreglass, this 6 tread swingback stepladder features non-conductive stiles, making it ideal for working around electricity. Designed for professional use, it includes a multi-functional holster top for tools, slip-resistant treads, and heavy-duty bracing for enhanced strength and durability.

Key Features:

- Non-conductive fibreglass stiles
- High performance holster top for tools and equipment
- External spreaders for easy operation
- Slip-resistant treads
- Heavy duty bracing for added strength
- EN131 Professional certified
- Suitable for professional use
